## **Environmental & Sustainability Policy**

This Policy formalises Foodnet's commitment to supporting the principles of sustainability and our dedication to both the protection of the environment and evaluating the impact that the organisation's services can have.

We are committed to a move to a sustainable, low carbon economy. We are aiming to reduce and ultimately eliminate the impact to the environment from our operations.

Foodnet Ltd recognises that a healthy environment is fundamental to the prosperity and wellbeing of, not only our employees, but also our local communities. Our company acknowledges that whilst our activities may have adverse effects on the environment, we can take steps to minimise those negative impacts. We recognise that policies to protect the environment are crucial and will ensure we comply with all environmental regulations, laws, and codes of practice, as applicable.

Our commitment:

- Promote responsibility for the environment within the organisation and to communicate and implement this policy at all levels within the business.
- Provide adequate resources to ensure we are able to meet our commitment to this policy.
- Comply with all relevant environmental legislation/regulation.
- To improve the energy efficiency to minimise and eliminate any adverse impact on our local and global environment.
- Implement new policies to improve our Carbon offsetting.
